

## What Does It Include?

### Measure & Design

- On-site design consult (within 60 miles of Perkins, MI. with no extra charge)
- Contractor with 10 + years of kitchen design experience for custom cabinetry from Cretens Furniture
- Obtain Measurements for cabinets and any parts required such as: crown molding, toe-kick, cap trim, valance, corbels, “legs” for sides of dishwashers or fridges (including dimensions needed), specialty construction of styles for cabinets to allow for clearances needed. Account and measure for specialty sizes needed when ordering a “hi-lo” upper cabinet effect, account for custom cabinet dimensions when ordering specialty sinks, cook tops, wall ovens, micro-hood combinations, etc.
- Consult /advocate at Cretens Furniture to go over your measurement/design information for manufacturing questions.
- Includes Advice/References for any plumbing/electrical/countertops /flooring /tile work possibly needed.

### **Contracted Installer:**

- Retains Responsibility for all measurements & designs (Providing details listed under Measure & Design, as the said contractor)
- Installation of the following (where ordered): Upper and Lower Cabinetry including any necessary shimming and scribing or sanding of cabinets to ensure a level fit, Toe kicks cut and installed, Crown molding mitered and installed, handles/knobs drilled and custom installed, any non-assembled cabinet parts installed/set up, Shim of any corner Lazy Susan cabinets to level to correct cabinet height, re-adjust all door and drawers to their final placement.

### **What does it Cost me?**

The average cost of hiring a Sub-Contractor with such experience, ranges between

**\$900-\$1500 total-** for **Measure, Design & Installation**. However, the value of a stress free and no hassle of worrying that your new kitchen will be taken care of for you, priceless.
